

ROOSEVELT'S ASSOCIATES TESTIFY THAT HE IS EXTREMELY TEMPERATE

COLONEL LISTENS WITH EVIDENT SATISFACTION THROUGH- OUT THE HEARING OF THE CASE

Important Ruling Made By Judge Flannigan Will Have Effect of Excluding Certain Kinds of Hearsay Evidence Which De- fense May Introduce—John Callahan O'Laughlin Puts A Degree of Positiveness to His Answers.

MARQUETTE, MICH., MAY 28.—Meg who have been associated with Colonel Roosevelt in public and private life, and newspaper men who accompanied him on his various political campaigns testified today in Col. Theodore Roosevelt's libel suit against George A. Newett, newspaper owner of Ishpeming, Michigan, that the former president not only was not a drunkard but that he was notably and extremely temperate in the use of intoxicants. It would have been impossible, the witness said for Colonel Roosevelt ever to have been under the influence of liquor without the fact becoming known to his associates. It would have been equally impossible, they testified for him, to have drunk liquor with an regularity without the smell of it on his breath, being apparent to the friend who testified.

Colonel Evidently Satisfied.
Throughout the hearing of the case, in which the former president is suing for \$10,000 damages because of the publication last October of an editorial charging him with getting drunk, Colonel Roosevelt listened with evident satisfaction to the testimony of former members of his cabinet and of newspaper men. Frequently his face lit up with a smile as some incident of his campaigns or hunting trips was related. Once Colonel Roosevelt gave vent to an audible chuckle. That was when Robert Bacon, former secretary of state in telling of his acquaintance with the members of the Roosevelt family, said that the colonel was the father of five children although the former president has six. Colonel Roosevelt's sense of humor was awakened at once by this lapse of Mr. Bacon's memory and the hearty chuckle he tried to smother in his hand caused a ripple of laughter about the court room.

For almost six hours of testimony taking Colonel Roosevelt occupied a chair just back of his counsel. He sat sometimes tilted back against the railing twirling his watch chain and occasionally casting the glint of his thick eye-glasses toward the balconies crowded with women and sometimes leaning forward to whisper to his attorney.

Important Ruling Made.
The day's proceedings were marked by an important ruling by Judge Flannigan in the introduction of evidence by the defense will have the effect of excluding certain kinds of hearsay testimony. This ruling came after a prolonged argument, during which the jurors were excluded from the room and after attorneys for Colonel Roosevelt urged for the exclusion of a certain kind of testimony which they said may be adopted by the defense through depositions taken from persons in different parts of the country.

The effect of the ruling was that Colonel Roosevelt's general reputation is an issue in the case and testimony bearing upon his reputation may be introduced, but that rumors or reports about his reputation coming from persons not qualified by experience to judge shall not be admitted. In the future progress of the hearing, it was explained in court a person who has traveled extensively with the former president who has been associated with him with any degree of constancy may testify as to his reputation. But a man who heard the colonel deliver a political speech, or saw him for only a few moments in a crowd may not testify as to his general reputation, although he may tell how the colonel acted or appeared at that particular time. James Pound and William VanBenschoten Col. Roosevelt's attorneys said the ruling was agreeable to their argument.

Pleads For Unrestricted Ruling.
Horace Andrews, one of Mr. Newett's counsel described the present civil action as a semi-criminal case and pleaded for an unrestricted ruling on the admission of evidence by the defense.

Almost every phase of Colonel Roosevelt's public life was touched upon by today's witnesses. All of them expressed personal knowledge in denying, as the editorial charges, that the colonel "gets drunk and that not infrequently and all his intimate friends know it." It was asserted that whenever Colonel Roosevelt drank champagne or wine or mint julep, it was out of courtesy to his host at some public function, that he often took only a mouthful from a wine glass and that on one occasion he ordered a railroad company not to place in his special car the usual supply of liquors usually placed in such cars.

testified the day before was recalled. Same Question Asked Repeatedly.
Repeatedly and in varied phrases the same question was put to each witness. "Have you ever known Mr. Roosevelt to be under the influence of liquor?" or "Have you ever seen Mr. Roosevelt under the influence of liquor?" and the answer invariably was negative.

Just as often, questions were put whether the colonel was in the habit of drinking intoxicants regularly in any quantities and the answer again was negative.

Mr. O'Laughlin who said he knew Colonel Roosevelt for many years and who went to a point on the Nile to meet the colonel on the latter's return from the interior of Africa, put a degree of positiveness to his answers by saying:

"I not only never knew of the colonel having been under the influence of liquor, but any suggestion that he ever was, appeared to me, on account of my intimate acquaintance with him, to be absolutely silly."

Question Leads to Argument.
It was a question put to Mr. O'Laughlin that brought about the argument of attorneys over the admissibility of certain testimony. Mr. O'Laughlin was asked whether he had heard a general report circulated among newspaper men that the colonel was in the habit of getting drunk. After the court's ruling, he was permitted to answer. His answer was that he had heard such rumors, but that he regarded them as wholly unfounded and not worthy of notice.

Mr. Newberry and Mr. Bacon were equally positive as to Colonel Roosevelt's habits of sobriety. It is likely that Colonel Roosevelt's side of the case will be completed tomorrow. Among those still to take the stand are Gifford Pinchot, James R. Garfield, Regis H. Post, Lawrence Abbott, William Loeb, Jr., W. Enline Roosevelt, a cousin to the colonel and two secret service men who traveled with the colonel when he was president.

Seek J. Martin Miller.
New York, May 28.—Assistant District Attorney Reynolds, to day confirmed the report that he had asked for the arrest of J. Martin Miller, formerly consul at Aix Les Chapelles, if he appeared at Marquette as a witness in the Roosevelt libel suit. Miller is under indictment here on a charge of grand larceny in connection with a check transaction. Mr. Reynolds sent a dispatch to Frank Harper, secretary to Colonel Roosevelt requesting that word be sent here if Miller appeared in Marquette.

DETECTIVE FOUND NOT GUILTY
OF ASSAULTING FRANK M. RYAN
Was Fined \$125, However, for Carrying Concealed Weapons and Drawing Them.
Indianapolis, Ind., May 28.—Robert J. Foster, a detective employed by the National Erectors' association during investigation of "dynamite conspiracy," was found not guilty of assaulting Frank M. Ryan, president of the International Bridge and Structural Workers' association in the criminal court today. Foster was fined \$125, however, upon charges of carrying concealed weapons and drawing them.

Early in the dynamite investigation Mr. Ryan alleged Foster had assaulted him and caused his arrest upon charges of trespass, assault and battery and the two charges upon which the detective was found guilty. Evidence showed that Foster was trespassing at the headquarters of the Iron Workers, or that he had assaulted Ryan, who was the prosecuting witness against the detective.

Zybsko remained on the defensive throughout until his collapse.

BANKER ON STAND AT WM. WOOD TRIAL

ATTEMPT IS MADE TO SHOW INTI- MACY BETWEEN WOOD AND ATTEAUX

Boston Banker Tells of Atteaux's Endeavors to Bring About a Set- tlement of the Lawrence Strike Brought About Many Conferences Between Leaders.

BOSTON, MAY 28.—Another big crowd listened today to evidence introduced by District Attorney Pellittier in support of the charge that William Wood, president of the American Woolen company and Frederick Atteaux, a dynamite manufacturer conspired with others to plant dynamite at Lawrence for the purpose of casting suspicion upon the striking textile operatives. One of the witnesses called by the government was Max Mitchell, a banker of Boston, whose direct examination was apparently intended to show intimacy between Wood and Atteaux. On cross examination he was used as a character witness for Atteaux. Mitchell told of Atteaux's endeavors to bring about a settlement of the strike and said it was due to the efforts of the dye manufacturer that many conferences between strikers and company officials were held.

Several times during the trial the prosecutor had questioned witnesses concerning the whereabouts of Charles A. Hardy, an official of the American Woolen company and Orville Reddig, formerly employed by Wood as a chauffeur but without receiving any information.

Today three police testified that they had been unable to serve a summons on Hardy and a Lawrence police inspector testified similarly regarding his efforts to locate Reddig.

The danger of the "plant" was illustrated in the testimony of Joseph Assaf, a Syrian painter of Lawrence, in whose home some of the explosive was placed. Assaf said that when he opened the package he thought the sticks might be some new form of paint. He tried to burn a stick and then smelled of dynamite.

He showed the stick to a person who told him it was dynamite.

ADOPT AMENDMENTS TO GOOD ROADS BILL

Indications are Amend- ments Have Minimized Op- position to Its Passage

BE TAKEN UP THURSDAY Is Made Special Order of Busi- ness for Next Thursday When Vote Will Be Taken.

SPRINGFIELD, ILL., MAY 28.—The state aid good roads bill under which the state automobile license funds will be distributed to the counties for the construction of main highways was advanced to third reading in the house today after second reading consideration lasting several hours, during which several important amendments were adopted. The bill was made a special order of the house calendar for next Thursday and indications are that the amendments adopted today have minimized the opposition to such an extent that the measure will pass. It is one of the most important pieces of legislation before the assembly at this session and promises to be one of the few big matters on which the legislature will take creative action. Advocates and opponents of the measure made several compromises in the way of amendments. As the bill finally was advanced it retains the chief features of state aid on the main highways which shall be constructed under the approval of the state highway committee the automobile money and legislative appropriations are to be allotted to the various counties pro rata, according to their proportion to the total road and bridge tax of the state. The counties are to put up dollar for dollar toward the construction of the state aid roads which are to be turned over to the state for perpetual maintenance after they are once improved.

Amendments Adopted.
The first Tice amendment restored to the townships of the state, the three highway commissioners. Under the original Tice bill only one highway commissioner was provided for. Under the amendment the three commissioners are retained and the township is given the right to have an election on the question of reducing the number to one.

The amendment was presented in recognition of opposition to the bill on the part of many county members who did not want to see the three-highway commissioner system dropped. The amendment was adopted.

Representative G. H. Wilson of Quincy presented an amendment providing for the compulsory dragging of roads which also was adopted.

Representative P. B. Roos of Cook county offered an amendment guaranteeing that at least 50 per cent of the money paid by Cook county in automobile fees and general taxes used for state aid on the roads, should be returned to that county.

On this amendment there was a spirited debate. Mr. Roos said Cook county would not get its fair proportion of the state aid funds under the original bill. He was backed up by Representative J. J. O'Rourke of Cook. He said Cook county pays 65 per cent of the automobile tax and 47 per cent of the general tax and that under the bill the county would get only 50 per cent of the state aid fund.

Fitch Opposes Amendment.
George Fitch of Peoria opposed the amendment.

"Good Roads are a state matter," said Mr. Fitch. "They affect the general welfare of the state. We county people want to visit Chicago. Chicago is advertising itself as a summer resort and a convention city. She now is trying to keep us out except by railroads, if you go to Chicago in an automobile now you have to buy a new car when you get back home."

"Chicago" depends upon the corn belt and the dairy and agricultural districts of the state. Chicago will be benefited if the state has good roads.

Edward D. Shurtleff of Marengo declared he had received many letters from Chicagoans, particularly Chinese men, who were satisfied with the bill. He opposed the amendment.

The Roos amendments were laid on the table by a vote of 91 to 44.

To Have Six Months Time.
Representative John P. Devine of Dixon offered an amendment under which counties will have six months instead of thirty days to designate the main road which they intend to improve by state aid. It was adopted.

A second amendment offered by Representative Burruss gave counties a year instead of six months to claim their proportion of the state aid funds. It was laid on the table.

Representative Cyrus J. Tucker of Decatur offered an amendment striking from the bill the section making the maximum width of roads forty feet. The amendment was tabled.

John McCarthy of Chicago then moved an amendment to strike out the enacting clause. At this point the friends of the bill moved a recess until 3:20 o'clock with the McCarthy amendment pending.

Recess Until 3:20 o'clock.
The senate committee on elections today voted unanimously to recommend the seating of Kent E. Keller in the forty-fourth senatorial district contest brought by Samuel Harwood. This is the last contest pending in the senate.

Senator Barr stated the committee report will be presented to the senate tomorrow morning.

The Chicago board of trade "puts" and "calls" bill, the passage by the senate early in the session was made the basis of charges by John Hill, Jr., of Chicago, resulting in Hill being cited before the bar of the senate, passed in the house late this afternoon by an overwhelming vote. The vote on the measure was 104 ayes and 24 nays. The bill now goes to the governor for his signature.

For some years the board of trade has been endeavoring to legalize "puts" and "calls." A similar bill to that which passed today was introduced in the last legislature but failed of enactment into law, largely through the opposition of former Speaker Charles Adkint of Bement.

Republican members of the house will hold a caucus at 8 o'clock next Tuesday evening to decide upon a course of action in regard to the initiative and referendum. This was decided upon this afternoon after the house adjourned.

SCHMIDT SOLE SURVIVOR OF AMERICAN ENTRANTS

Massachusetts Player Won Both First and Fifth Round at St. An- drews Tournament.

St. Andrews, Scotland, May 28.—W. Heinrich Schmidt, the Massachusetts player, is sole survivor among American entrants for the amateur golf championship of the world. He won in both the first and fifth round today.

Showing no signs of fatigue, despite the gruelling fight with A. V. Hambro of the Royal St. George's club, whom he defeated by one up early in the day, Schmidt in the fifth round smothered Willie Gregg of St. Andrews who yesterday downed Munn, the famous player and a hot favorite for the championship.

The American was out in 38 and stood six up at the turn. Coming in, he holed out in four, three and four, never giving his opponent a chance and won eight up and six to play.

Harold Weber of Toledo, O., was eliminated by Worthington of the Midway golf club who won by one up.

Learned Golf as Caddy.
Worcester, Mass., May 28.—W. Heinrich Schmidt is a senior at the Worcester Polytechnic Institute. He is 23 years old. He learned golf and earned many a bright quarter as a caddy at the Worcester Golf club. His playing career has been unusually brilliant.

Chicago, May 28.—Edmund E. C. von Klein, charged by Miss Ethel Newcomb of Portland, Oregon, with having stolen jewelry valued at \$3,325 from her after proposing marriage, is believed to be on his way to Portland tonight in charge of a detective from that city. Von Klein failed to gain his liberty at a habeas corpus hearing to day and was remanded to jail. Immediately afterwards, a detective from Portland took him from the jail in an automobile and it is believed they started for Portland. At the Von Klein left the jail his attorney was in the federal courts, seeking to have issued another writ of habeas corpus for his client.

Indianapolis, Ind., May 28.—Joe Dawson, winner of last year's 500 mile Memorial day automobile contest here will not drive in the race Friday. The especially constructed car, Delta, showed a defect due to shipping, under the gruelling work-out Dawson gave the machine yesterday, and the driver announced today after a hard day's work to repair the break, he would be unable to start in the contest. This leaves twenty-eight entries. Only nine cars qualified today—six this morning and half that number in the afternoon.

The remaining cars, eighteen having passed the tests, will make the runs tomorrow.

WILL SEND DELEGATES TO CONFER WITH CHINDA

WILL CONFER WITH JAP AMBASSADOR ON ANTI-ALIEN LAND LAW

Two Delegates and Baron Juichi Soyeda Will Leave San Francisco For Washington About June 8th.

SAN FRANCISCO, MAY 28.—At the meeting of the Japanese Association of America today a resolution was made providing for the sending of two delegates to Washington to confer with Ambassador Chinda on the anti-alien land law and the general condition of Japanese subjects in California. The delegates selected were:

George Shima, president of the Japanese Association of America and known as the potato king of Kabiko, proprietor of the Japanese American, a local newspaper man.

Baron Juichi Soyeda, who arrived recently from Tokyo, will accompany them. The party will leave about June 8th.

Japs Arrive in Sacramento.

Sacramento, Cal., May 28.—S. Ebara, a member of the upper house of the Japanese parliament; A. Hattori, a member of the lower house, K. Yamamoto, secretary to Ebara and secretary of the Tokyo Y. M. C. A., and Kabiko, a Japanese newspaper editor of San Francisco arrived in Sacramento tonight to visit Governor Johnson and learn at first hand what objection Californians have to Japanese land ownership.

Purely Business Matter.

London, May 28.—In an editorial on the California situation the Standard advises Japan to deal with the question as a purely business matter rather than to import into it sentiments of racial and national pride.

As the allies of Japan and the firm friends of the United States, the British people would deem it a misfortune of the first magnitude if the negotiations left behind feelings of exasperation on either side, it says.

The Standard proceeds to show that the occidental world is interested in the larger aspects of the question raised by the California land law. In British Columbia, no less than in California feeling of the settlement of Japanese and Chinese is strong.

The paper adds, the precedent of unrestricted admission would be dangerous should awakening China demand the same privileges because a Chinese is a most efficient machine and has learned through a grimy struggle existence in his own overpopulated country the secret of subsisting on a minimum.

JUDGE GARY TESTIFIES IN GOVERNMENT DISSOLUTION SUIT

Had Never Discussed Question of Obtaining Monopoly or of Sup- pressing Competition.

New York, May 28.—Judge Elbert H. Gary, chairman of the United States Steel corporation and the man who conducted many of the negotiations which led to its organization, declared on the witness stand today that neither he nor the late J. P. Morgan, nor anybody else concerned, had ever during these negotiations discussed the question of obtaining a monopoly in the steel industry or of suppressing competition. Judge Gary was testifying as a witness for the defense in the case to dissolve the corporation under the Sherman anti-trust law.

"Our effort," he said emphatically, "has been to extend trade and to foster competition and we have done that."

With equal emphasis Judge Gary denied that the steel corporation had been over capitalized as alleged by the government. The various properties "acquired were all worth the price that was paid for them," he declared, while the properties of the Lake Superior Consolidated Iron Mines, John R. Rockefeller's concern were obtained, "it has since been proved at a very low price."

SET NEW RECORD IN WIRELESS TELEPHONY.

Berlin, May 28.—A new record in wireless telephony has been established at the Naun station. Some of those at the receiving end complained that the reader spoke too loud.

MAY YIELD TO PROTEST OF FOREIGN NATIONS

May Eliminate Clause Granting Discounts on Im- ports in U. S. Vessels

WILSON WILL NOT OBJECT President is Said to Have No Objection Towards Eliminating the Provision.

WASHINGTON, MAY 28.—Congress in all probability will yield to the protests of foreign nations against the provision in the Underwood tariff bill granting a five per cent discount on imports in American owned or controlled vessels.

That the provision be eliminated without harm and that congress has no desire to insist upon legislation that will be embarrassing to foreign nations or interfere with treaty obligations was admitted to day by administration leaders in charge of the bill. President Wilson is said to have intimated that he would not object to having the clause eliminated.

This action it was reported would be recommended by the finance subcommittee headed by Senator Williams which is considering the administrative features of the bill. The subcommittee also will seek to modify another clause which compels foreign merchants to submit their books to an American agent in case of disputed valuations and provides as a penalty for refusal that the goods be excluded from entry.

Lower Make Protest.

Germany, France and England have made protests against this clause and assurances were given to day that an effort would be made to eliminate the objectionable features.

It was reported that the state department held it to be unquestionable that the five per cent debenture clause violated foreign treaties. During conference protests against the clause from eight nations read.

It was generally expected tonight that the house would yield to a senate amendment striking out the clause. As the senate subcommittee got down to bedrock to day and began consideration of proposed changes in the bill they found a long job ahead of them.

Spurred on to finish the schedules within a week if possible they aimed to hold out until the executive session but some of them feared the even in this way they would be unable, however, to be ready for the full committee before ten days.

Representative Hull of Tennessee author of the income tax section of the bill was in conference with Senator Williams and Shively going over the protests which have been filed. Mr. Hull pointed out that the two chief features of the section which have been under fire were clauses fixing the graduated tax—the surtax upon incomes of \$20,000—and the provision for taxation of dividends of insurance companies.

To Investigate "Tariff Lobby."

Senator Cummins expects to call up for consideration in the senate tomorrow his resolution directing the appointment of a subcommittee to investigate the presence of a tariff lobby in Washington as emphasized in the recent declaration against lobbyists by President Wilson.

Democratic leaders asserted today that there would be no organized opposition to the resolution but it is expected that a motion will be made to refer it to the finance committee. After reference of the resolution the committee will take it under consideration but owing to anxiety to get the tariff bill into the senate as soon as possible action on the proposed lobby inquiry probably will not be taken until the bill has been reported.

Frisbee, one of the best all round athletes who ever left the Springfield high school will graduate this year and will wear an Illinois college uniform next season, according to reports. Frisbee is well known to local athletes and his work has been watched with interest. He has played several positions on the high school football team and last year starred as an end man. He is also one of the best basketball men of the Capital city. As a track man his record is hard to beat, being a sprinter of no mean ability. Along with Frisbee will come Wilson and Lawless, two other splendid athletes from the Springfield high school.

Mitchell, who won fame as a tackler on the Pittsfield high school team comes to Illinois this year. It is said and Hall of Mt. Vernon, who plays center is scheduled for Illinois. Valentine, another man from Mt. Vernon, reported to be a good athlete will be numbered next year among the college athletes. It is also reported that an all round man is coming here next year from Jerseyville and that Knight of Beardstown, who won so many honors at the recent W. I. H. S. meet is thinking of joining the ranks of Illinois next year. Clayton Stewart of the J. H. S. is also contemplating a course through Illinois and is a good athlete.

Aside from these new men, most of whom are football players, Coach Harmon will have ten men of last year's last team who expect to be in school the coming season. They are Capt. Alford, left half; McLaughlin and Pierce, ends; Robbin Russell, left tackle; Tandy, center; Carl Lukeman, left guard; Holmes, right guard; Fred Stewart, quarter back; Basel Sorrells, left half; Jackson, full back.

Manager Jensen has been indulging in considerable correspondence about the new schedule. It will be noted that Illinois will play their Thanksgiving day game away from home, meeting Williams and Vashit on their home grounds. The campers will start for Elsinore cottage, Lake Matanzas, the first of the month and will remain away until June 13. The other officers of the camp who have recently been appointed are Manager H. A. Brewer; quartermaster, L. S. Recker; athletic director, Harry Walker, first aid man, Fred Darr; boat-keeper, Gary Whitlock; Bugler, Harold Smith and musical and social director, Frank Buzza.

INSPECT PIPE LINE.
Mayor Davis and Commissioners Brennan and Knollenberg went with David Estaque in an automobile for an inspection of the Jacksonville Water company's pipe line yesterday. They followed the line for the greater part of the distance between Jacksonville and Bluffs. There are probably twenty leaks in the pipe all of them occasioned by the rotting away of the gasket rubbers in the joints. Men are busy at work stopping the leaks but it is doubtful if this work can be completed by June 1st. However the volume of water which can be pumped through the pipe is such that a considerable loss can be sustained through leaks and still not greatly interfere with the pressure.

THEATRE DINNER IN HONOR OF MR. AND MRS. COBURN

Members of the Drama League Entertain at Peacock Inn in Honor of Guests—Mr. Coburn Speaks.

Following the presentation of "Iphigenia in Tauris," the members of the Drama league gave a theatre dinner last evening at the Peacock Inn in honor of Mr. and Mrs. Coburn. There were fifty members present and others of the Coburn caste included Mr. and Mrs. George Currie, Mr. George Gaul, Mr. Nagel. Following the excellent dinner served by Mr. Coburn was introduced to the league members by the president, Mrs. David Reid, and gave a short but comprehensive account of the small drama league organizations. In part he said:

"There are many institutions which exist for the uplift of the drama but most of them have made the fatal mistake of beginning at the wrong end. The uplift of the drama must begin, not with the actors, but the public. Every time you buy a ticket at the box office the manager feels your pulse, therefore the receipts at the box office are a definite record of the demands of the public. Every time you buy a ticket for a poor play you are encouraging the taste of that sort of drama. Every time you buy a ticket for a good performance you are helping to create a demand for a good thing and by that much, are helping to elevate the standard and cultivate the tastes in your community. The most potent means at present for elevating the standard of the drama is the small circles and organizations of which the Drama league is one. If we are ever successful, as we hope eventually to be, in having a state supported theatre, it will be through the influence of such organizations. The theatre has fallen into bad ways, and it is for such organizations as this to lead it back among the educational forces, where it belongs."

"We feel confident that we never could have had the performance you have had in Jacksonville, without the aid of the Drama league. We have felt a real inspiration through your presence and support. We will be entirely satisfied if we can feel that we have brought you in any degree, the inspiration which you have been to us."

ELKS STATE CONVENTION
TO BE HELD IN ROCK-ISLAND

Big Plans Are Being Made For Annual Gathering June 3, 4 and 5—
"Bill Tomorrow" Story For Elks.

The state convention of the B. P. O. E. will be held this year in Rock Island. It will be a three days convention from June 3 to 5. The local lodge expects to send delegates, among them F. L. Sharpe, Percy Cherry, Robert Tilton and George Oren. Rock Island will leave no stone unturned to make the time worth while to the visitors in the city.

The convention publicists of the Elks have just issued a poster to boom the convention. The bulletin is in purple and white. The title of the little story is "How Bill Tomorrow Changes His Name." It reads:

"This is the story of Bill Tomorrow, an Elk in good standing, who never attended a state convention of the Illinois Elks. Every year an effort was made to persuade Bill to go along with the boys, but he always thought he could not spare the time and money for the trip. When the convention was over and he sat around the club with some of the fellows that had been there he heard many tales of the good times they had, and always made up his mind that the next year he would attend. It was the same old story—Mr. Tomorrow couldn't spare the time—he would go next year.

"Finally, one year Bill had a vacation at the time of the convention and the boys made him go along. He had the time of his life, and his only regret was that he had missed so many previous conventions.

"From that time he has always managed to arrange his work so that he could get off for the big gathering and he hasn't missed a state convention since.

"His name is now Bill Today. "Why did I change? There must be a good reason. Come to the big convention to be held at Rock Island June 3, 4 and 5 this year, and you will soon learn why Bill changed his name. Don't put it off another year. Come now."

DROUGHT IN DOUGLAS COUNTY.
That the scarcity of rain is by no means local is shown by reports from Hindsboro in Douglas county where the farmers are plowing their oats under on account of the dry weather. Wheat, timothy and clover also are in a serious condition. The corn is hardly able to get through the ground which is very cloddy. The rains of last week did hardly any good in that section of the state.

Stoger told about a suicide pact and that his wife had left one bullet in the revolver for him but that he had lost his nerve. On Stoger's statement a charge of homicide was entered against him. BEGIN ATTEMPTS TO HOLD C. K. G. BILLINGS RESPONSIBLE

Would Hold Director Responsible For Failure of Walsh Banks to Extent of \$5,000,000.

Chicago, May 28.—Attempts to hold C. K. G. Billings, banker of New York and Chicago responsible for approximately \$5,000,000 due to the failure of the John R. Walsh banks, the Chicago National and the Home Savings were begun in the circuit court here today. Stockholders who brought the suits charged that Billings negligence as a director permitted Walsh to operate schemes which led to the wrecking of both banks. The amount lost by the Chicago National Bank is placed at \$3,500,000 and the Home Bank losses at \$1,500,000.

The denurrer of Mr. Billings is on file, attacking the sufficiency of the allegations and stating that the other directors should be made parties to the suits.

A plan to accept \$152,125 from Mr. Billings in full settlement of his liability was prevented by an order of Judge Tuthill who appointed W. C. Nislack receiver for the banks. Arguments of the suit were set for next Tuesday.

When the Sea Was Fresh Water.

The ocean was once merely brackish and not salt, as it is now. This was when the earth was in its first youth and before there was any land showing at all or any animal life in the water. At this time the water was gradually cooling from its original state of steam, and the salts were slowly undergoing the change from gases into solids. Then came the appearance of land and later on rivers, which gradually washed down more and more salts, while at the bottom of the ocean itself chemical action was constantly adding more brine to the waters. At present it is estimated that there are in the world's oceans 7,000,000 cubic miles of salt, and the most astonishing thing about it is that if all the salt could be taken out in a moment the level of the water would not drop one single inch.

Queer Name For a Flower.

Every one knows that wild flowers are known in various districts by local appellations. Some of them are pretty, many are curious, others merely quaint. But there is one pretty wild flower, the ordinary white arabis, beloved of bees, a low growing flower which edges many garden paths. At Guildford, in Surrey, England, it is known as "welcome home the husband he never so drunk." The origin of the name is not apparent. It is believed to have gained the name because the flower shines out so white at night.

Nothing but Work.

One very well known character at Oxford used to say that modern undergraduates were sadly inferior to their predecessors, who had constantly employed him when they went out with gun or rod. "There's a very idle set of gentlemen at the university nowadays," he said. "They never shoot; they never go fishing. They do nothing—nothing but read, read, read from morning till night."

To the Point.

"That was a very appropriate remark the jockey made when they pulled him from under his mount when it stumbled and fell on him."

"What was the remark?"

"This is a horse on me!"—Baltimore American.

Modern Dancing.

Clara—They say that one evening's dance is equivalent to walking ten miles. Maud—That was the old style. Now it's equivalent to climbing about 100 trees.—Life.

Patience is the most necessary thing in this world.—Confucius.

HAD MARRIED THREE AND WAS ENGAGED TO FOURTH

She is Mrs. George Williamson, of Barrington, a suburb, whom reported to the police that Morrison or Williamson, as he knew him, married her several years ago and deserted her soon after.

EXTENDS TIME TO JUNE 30.

New York, May 28.—Judge Holt in the United States district court today handed down an order extending the time of claimants to file exceptions to the limitation of liability petitions of the owners of the sunken steamer Titanic to June 30 next. Under a former order of the court only two claimants had the right to file exceptions after June 22. Judge Holt's order today means that every claimant may file objections to having a limit placed on the company's liability growing out of the disaster of a year ago.

BREAKS HIS NECK.

ABOUT IN TEN DAYS.

Denver, Colo., May 20.—Marshall Erb is attending to his business affairs as usual today, with only a plaster cast to remind him that he broke his neck ten days ago. Erb was getting out of bed when he gave his head a peculiar twist and fractured the third cervical vertebra. He was kept in a hospital until yesterday strapped in bed with his head in a harness, with weights arranged in such a way as to keep the neck rigid. Yesterday a plaster cast was substituted for the harness and Erb was permitted to go to his home.

SON DISAPPEARS.

Atlanta, Ga., May 28.—Efforts are being made by the police tonight to locate Wade Stevens, 19 years old son of Mrs. Sarah Stevens, whose charred skeleton was found today in ashes of her home. Close to the bones of Mrs. Stevens were those of her adopted daughter Nellie, aged 15. The skulls of the women had been crushed. Robbery is thought to have been the motive for the crime. A coroner's jury directed the apprehension and detention of Young Stevens, although he was not charged with the murder by the coroner's jury. Stevens has disappeared.

Diabetes No Longer Feared

Peculiar Action of a Remarkable Remedy in Controlling Liver Action.

S. S. S. Quickly Puts Vm and Energy Into You.

There is no need to feel any alarm over the symptoms of diabetes. This disease is apt to be purely a digestive trouble, and for this reason the liver is held largely responsible. The liver is the largest organ of the body, and is not only a mass of thread-like blood vessels, but throughout its entire fabric is intimately associated with the digestive system. The thing to do is to so stimulate the action of this myriad of blood vessels that each cellular part selects its own essential nutriment by healthy and judicious divine discretion. This is accomplished by S. S. S., the most potent, the most active and the most naturally stimulating blood medicine known. You do not need purgatives; do not be alarmed at the presence of sugar nor of so-called sediment.

Just stick to S. S. S. and bear in mind that this celebrated remedy has such a specific stimulating action on the local cells of the liver as to preserve their mutual welfare and give a proper relative assistance, each cell to the other.

Dropsical tendencies are thus overcome, biliousness soon becomes a memory and jaundice, malaria, affections of the spleen and glandular swellings will be entirely eliminated. You will find S. S. S. on sale at all drug stores and for competent medical advice, free, consult by mail the laboratory of The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga.

MAN TIGER WILL PAY THE DEATH PENALTY

Famous Criminal, Guilty of at Least Four Murders, Is to Be Executed Within Next Two Weeks.

San Francisco, May 28.—After delaying his execution for more than five years, by availing himself of every legal technicality and every court, Jake Oppenheimer, "the criminal in the century," will be executed at Folsom prison with the next two weeks unless the governor intervenes and commutes the sentence. Oppenheimer, whose ferocity and murderous tendencies have gained for him the name of "Man Tiger," and have made him the terror of guards and prisoners alike, is considered one of the most remarkable criminals ever known in this part of the country. He has a long record of crime and is known to have committed at least four murders.

Oppenheimer began his career of crime in this city many years ago, when he was employed as a messenger boy for a telegraph company. One day he was discharged by the superintendent and promptly revenged himself by shooting the superintendent. Three years later he was sentenced to 50 years' imprisonment for robbing a drug store. A man named Ross testified against him. Oppenheimer was sent to Folsom and later when Ross was also sent to that institution for some other crime, Oppenheimer awaited him at the prison gate and stabbed him to death.

Some time after that Oppenheimer murdered a guard named McDonald at the prison. As a punishment he was placed in solitary confinement, but obtaining a file and cutting his way out he made a murderous assault on a fellow convict named John Wilson, with a butcher knife. In 1901 the state legislature of California had passed a law imposing the death penalty upon any prisoner who should make an assault upon a prison official or a fellow prisoner. Under this law Oppenheimer was tried in October, 1907, for his attack upon Wilson, who died from the effects of the stab wounds. Oppenheimer was found guilty and sentenced to death. The execution was set for June 6, 1908, but Oppenheimer, through his counsel, appealed and fought his case through several courts and finally the supreme court of the United States. Every court decided against him and the United States supreme court upheld the validity of the California law. Oppenheimer made another attempt to save his life by obtaining a writ of habeas corpus and bringing his case before the United States district court upon the plea that the statute under which Oppenheimer had been sentenced was retroactive and contravened section 19 of the constitution of the United States, which forbids the passage of ex post facto criminal laws. This case was also dismissed and with that all resources of the law were exhausted.

While awaiting the decision of the courts in his efforts to save himself from the gallows, Oppenheimer was kept in strict confinement at the Folsom prison. There he continued his criminal career with unequalled cunning and ferocity. In company with two other prisoners, J. W. Finley and Francisco Quijada, Oppenheimer made an attempt to break out of the prison at midnight on January 6, 1910, by sawing the bars of their cells. They would have succeeded had not Night Captain Quigley detected them sneaking along a corridor. He called several guards and subdued the prisoners.

Quijada, a half breed Yaqui Indian, had attacked some of the prison guards several years before and had also been sentenced to death under the law of 1910. He also appealed to the courts and his case was pending at the time when Oppenheimer began his fight for life. There was considerable ill feeling between the two prisoners from the very beginning and the mutual hatred increased in the course of time. The climax came in September, 1911, when one morning Quijada challenged Oppenheimer to a combat for life, while the prisoners were permitted to exercise in the corridor of the prison. Oppenheimer, who had secretly prepared himself for such an emergency, flung himself upon the Indian and stabbed him to death with a sharp piece of steel which he had picked up in the prison yard several months before and which he had secreted in his mattress ever since.

Although there was never a lack of "bad men" in the prison, Oppenheimer was always considered the most dangerous of the prisoners. He was greatly feared not only by his fellow prisoners, but also by the prison guards and officials and for several years it was considered necessary to have him watched and guarded by two guards armed with loaded rifles. Oppenheimer was the most sullen and refractory prisoner in the penitentiary and on many occasions it became necessary to discipline and severely punish him.

SEEK TO BREAK

MILLIONAIRE'S WILL. Hackensack, N. J., May 28.—A hearing to set aside the will of John S. Lyle of Tenafly, who died on July 26, leaving an estate of several million dollars, was held in the Orphans' court here today. Mr. Lyle, who was a member of the firm of Lord & Taylor, New York, was 92 years old. He left the greater part of his fortune to his young wife, Julia Gertrude Lyle. Nephews and nieces, to whom he left only small bequests, are seeking to have the will set aside on the ground that for a long time prior to his death Mr. Lyle was of unsound mind and incapable of disposing of his vast estate. Undue influence on the part of his wife is also alleged by the contestants.

MAY SOLVE MYSTERY OF GREAT ROBBERY.

Arrest May Clear Up Big Bank Robbery.

Chicago, May 28.—Detectives believe that the arrest of Michael J. Flanagan, Charles O'Leary and William J. Lawler, who were given a preliminary hearing in court today on charges of being connected with the robbery of the New Westminster, B. C., branch of the Bank of Montreal, will ultimately lead to a clearing up of the mystery of the great robbery and the recovery of much of the loot. Flanagan, who is a Chicago saloonkeeper, is alleged to have had thousands of dollars' worth of the stolen bills in his possession and to have disposed of many of them through O'Leary and Lawler.

The robbery of the New Westminster bank occurred on September 14, 1911, and was one of the most remarkable thefts of its kind in recent years. Notes and gold amounting to about \$375,000 were stolen. The robbers bound the watchman, dynamited the vaults and fled in an automobile. Finding they had more loot than they could carry they hid \$24,000 beneath a wooden sidewalk in the city. On January 1, 1912, John McNamara, known as "Australian Mack," was arrested in New York and after a fourteen months' fight against extradition was returned to New Westminster, where he and four alleged confederates are awaiting trial. It is believed that the Chicago arrests will lead to the capture of another member of the gang who is known to be at large and who is believed to have possession of the bulk of the stolen money.

A man living at Auburn, New York, had a severe attack of kidney and bladder trouble. Being a working man, not wanting to lose time, nor to run up a heavy doctor's bill, he cured himself completely by using Foley's Kidney Pills. A year later he says: "It is a pleasure to report that the cure was permanent." He has had no return whatever of the pain, backache and burning. His name is J. A. Farmer, and he says "Of course I recommend Foley's Kidney Pills as a very effective cure for kidney and bladder trouble." For sale by the City Drug Store, J. A. Obermeyer.

WOMAN'S COLLEGE NOTES.

The events of commencement are crowding fast upon each other. The semester examination have begun; the academy commencement exercises take place Saturday morning at 9:30 in Music hall. Announcements in detail may be had at the office of the college by those who are interested.

The recital given by the expression department Saturday night will be of unusual interest. Oliver Goldsmith's play, "She Stoops to Conquer," will be given by the department. A charge of 10c will be made to cover cost of getting costumes from the city. This play requires quite a large cast of characters and the best talent of the department is being used.

On Tuesday evening Rev. E. E. Lymer, S. T. D., dean of Iowa Wesleyan, arrived at the college for a conference with Dr. J. W. Hancher and with Dr. Nicholson, who reached Jacksonville Wednesday morning. Dr. Lymer left Wednesday noon and Dr. Hancher Wednesday evening.

In the chapel services Wednesday morning Dr. Hancher made a brief address to the students, in which he took occasion to state the regard in which the school and president are held by the church officials. He also marked off the squares as announced in a previous news item.

The college of music is getting out a very attractive catalogue describing in detail the work and the courses offered. It will be illustrated with a number of half tones and will be a most useful as well as a most needed publication.

The finals in the tennis tournament will take place Saturday afternoon at 3:00. This will decide who will be awarded the silver cup. There is no charge and all who are interested are cordially invited to be present.

Farmers Threaten to Boycott Merchants and Banks Who Oppose Granting Franchises.

Jerseyville is stirred up over the question of granting a franchise to the Alton Jacksonville and Peoria railroad to lay tracks in State street. When the farmers in the McClusky neighborhood, who demand that the electric line be run into the city, began enforcing their threat to boycott Jerseyville business men and banks unless the franchise was granted, the business men got busy, but opponents of the franchise then began to threaten to boycott the business men if they did favor the franchise.

"Give me my bill, I want to pay up and quit trading with you," is the form of request being used on the business men by the McClusky residents.

It was reported that one bank was notified by a wealthy family that it would withdraw its deposits if the bank officials signed for the franchise, and the bank also has been notified by the McClusky farmers they will withdraw their deposits if the franchise is not signed for. The contest has developed intense feeling and it is an undecided question as yet whether the Alton, Jacksonville and Peoria will be given the rights in Jerseyville it desires.

AUTOISTS ON LONG TRIP.

Party in City Has Come By Car From Los Angeles.

W. P. Klepinger and a party of friends arrived in the city Wednesday and spent the day resting and visiting various places of interest. They were enroute from Los Angeles, Calif., to Dayton, O., and had been on the road about four weeks, were in no haste, and were enjoying the trip to the limit. Mr. Klepinger in a conversation said that he had found good roads, the greater portion of the way from New Mexico, until he crossed into Illinois. He spoke in complimentary terms of the beautiful farms he had passed and of the topographical appearance of the lands in general and said that he had not seen any farming lands to excel those of Illinois, but said he had found the public highways needed attention as the roads were too choppy and needed putting in passable condition, not only for travelers but for local use in going to and from market.

HEAD OF STATE G. A. R. WEDS FRIEND OF EARLY YEARS

Rev. J. H. Carter Married to Miss Annie Williams of Sangamon County—Renewed Friendship at Alton Encampment.

The Decatur Review gives the following details of the recent marriage of Dr. J. H. Crowder, commander of the Illinois G. A. R.:

Rev. J. H. Crowder of Betany, last week elected department commander of the Illinois G. A. R., was recently united in marriage to Miss Annie Williams, of Springfield, Judge J. B. Weaver officiating.

The couple who had known each other for a great many years, met again at the Alton convention. At this meeting, old friendship was renewed and they decided to be married.

Mr. Crowder is seventy-one years old but does not appear to be much over fifty. Mrs. Crowder is a few years younger than her husband.

At the ceremony the groom wore his Grand Army uniform and the medals for bravery, won in the civil war.

Mrs. Crowder has been living on rural route 6 out of Springfield. She owns a farm there.

Member of Bethany Post.
Though Mr. Crowder resides at Bethany, he is practically considered a Decatur man and was supported strongly by the local post in his fight for the place. He is a member of Alexander Post, No. 176, Bethany.

Family of Soldiers.
Mr. Crowder comes of a family of soldiers. Two of his great-grandfathers were soldiers under George Washington when Cornwallis surrendered to the former and his mother's father was killed in the battle of Horse Bend, March 29, 1814. His mother's grandfather served through the two wars with England and died at the age of 114 years. At the time of the civil war he was one of five brothers that answered the call. Two were killed at the front and two died later by reason of their service.

He was born in Moultrie county in 1842. He enlisted in Co. A, 126 Illinois infantry, on July 31, 1862 and served three years. Two years he served on the staff of the second division army corps. He was a United Brethren preacher for twenty-three years. He was a farmer, cattle breeder and banker and financially has been very successful.

This is Mr. Crowder's second marriage, his first wife having died about a year and a half ago.

EDUCATION NOTES.

Of the 85 foreigners who are in Rome this year studying the Montessori schools, 60 are Americans.

The second international congress on the teaching of domestic science and arts will be held at Ghent, Belgium, June 15-19, 1913.

At least one American state finds it desirable to publish its laws in Spanish. The New Mexico department of education issues a special Spanish edition of the school laws and of constitutional provisions relating to education.

Sweden maintains schools for Laplanders' children in the north. There are nomad schools with a five year attendance period of 36 weeks each, and fixed schools with a winter course of 13 weeks.

Two teachers in the schools of Berlin, Germany, are this year celebrating their 50th anniversary of school teaching. There are 42 others who have taught 40 years, and 47 who have taught 25 years. The Berlin Teachers' society will tender a banquet to these veterans in December.

Little Rock, Ark., spent \$20,000 on playgrounds last year. The money was raised by public subscription, through the efforts of a highly organized playground association. The enthusiasm for playgrounds has since spread to other cities in the same region, notably Pine Bluff.

In Pittsburg 48 per cent of the 63,141 elementary pupils investigated were behind grade, while 11 per cent were retarded three years more. Dr. J. E. W. Wallin, director of the recently organized psychological clinic of the University of Pittsburg, declares that 3,300 of the children should be in special classes.

An outdoor performance of a drama of African life, "For Unkulunkulu's Sake," was a feature of the 45th anniversary of Hampton institute, recently celebrated. This four act play presented vividly and sympathetically existing conditions of ignorance and superstition in Africa, and indicated how life in the dark continent might be improved through the introduction of the type of industrial and agricultural education for which Hampton is noted.

A commission of professional educators to judge the efficiency of school superintendents is suggested by Dr. G. D. Strayer in a current bulletin of the United States bureau of education. Dr. Strayer objects to the present conditions "whereby a politician, an interested book publishing company, or a personal enemy" is permitted to attempt the removal of the superintendent without any adequate measure of his work. Dr. Strayer thinks a permanent commission of experts would change all this.

QUIT CALOMEL

Thousands Are Turning From This Dangerous Drug.

A Safe Vegetable Substitute Is Olive Tablets for the Liver.

Dr. F. Edwards, a prominent physician of Ohio, has discovered a new laxative and liver tonic in a combination of vegetable materials mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel, except that there are none of the bad effects of calomel.

Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.

His distrust of the uncertain drug eventually started him years ago towards experiments with the view of discovering a substitute, and he is today in possession of the long-sought for combination, which is in the shape of a little sugar coated, olive-oil colored tablet.

The results of 17 years' experience and practice are embodied in these marvelous little tablets.

They are called Dr. Edwards' Olive Tablets. They oil the bowels, and their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as thousands of others who have suffered and were afraid of calomel.

They are gentle in their action, yet always effective. They bring about that exuberance of spirit that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities. 10c and 25c per box.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Headaches are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Mawber's Herpicide to the scalp. It will kill the germs and healthy hair is sure to result.

PICTURES LIFE IN THE PHILIPPINES

MANILA SPECIALLY RICH IN CHURCH ARCHITECTURE.

Jacksonville Tourists Study Phases of Native Life—Have Isits With Mrs. Martha Duer-Lamb—U. S. Government Has Accomplished Much in Island Possessions.

(By S. W. Nichols).

Manila, Philippine Islands.

As is well known, the native people of the Philippine Islands are adherents to the Roman Catholic faith and the city of Manila abounds in churches of that denomination. Some are grey with antiquity and possess histories which are fascinating to the antiquarian, as well as rare treasures, old time books and a thousand and one things tempting to the tourist to linger long among the ancient piles. A marvel of church architecture is the Jesuit church, which is a native do this, but I fear it would trouble an ordinary person not a little to do it.

Making lumber by the natives is a fright indeed. First the log is hewn square at a great expense of time and labor. Then the log is hoisted into the air, one man at the top and one below. The saw is dragged along a chalk line and the result is a quality of lumber that is very fair and true.

As wood carvers the native exceed, though of course they display no originality in the work, but they can imitate almost anything. I have already referred to the astonishing work in the Jesuit church and all about one sees samples of the art, though the most of it is in the churches, where it is seen to best advantage. Skill is marvelously displayed and the wonder grows as the work is carefully studied.

A Visit to Pasig. One morning we had a pleasant excursion to a native village called Pasig and were able to study many phases of native life. Naturally in such a tropical land people are indolent and are not required to do very much, for the wants of life are few and easily supplied and as a result the native people spend most of their time doing little or nothing, in remarkable contrast with their brethren of Japan, who are so industrious and thrifty. As we rode along men were at work in the meadows cutting grass with knives and tying it in bunches about as large as a man's arm and these smaller bunches into larger ones, such as could be borne on the back of a person or still larger for a pack animal. These were displayed for sale in the markets about the city and they are bought by owners of animals of different kinds.

In one place we saw workmen with water buffaloes laboriously stirring up the mud in a rice field preparatory to planting that crop which is essentially the staff of life in this region. Occasionally other workmen were seen, but they were few and far between. A number of soldiers lounged around the station at Ft. McKinley and we thought of the gentle president who is so beloved here and elsewhere. Pasig is a village on the banks of the river of the same name and is a quiet, sleepy place. It has felt the advent of the Caucasian and restaurants and saloons attest the fact, though in general primitive life and manners still prevail. A native house is indeed a study. The ever present bamboo is necessary in the construction and the first thought is coolness. Sticks are placed in the ground and four or five feet high the rest of the construction begins. Strips of bamboo with spaces between make the floor and woven together make the sides. Vegetable growth of some sort supplies the roof and the house is complete. It may have one, two or three rooms and large openings which are supplied with grass woven shutters to let down in case of rain or wind. No bedsteads or superfluous furniture take up room; small arrangement of almost any kind for a bit of fire supply the little cooking facilities and the work is done. The children are clothed as were their first ancestors in the garden of Eden and careful mothers are not troubled with the wardrobes of the little ones.

A fighting cock or two may be seen tied by the leg under the house and we saw one who had evidently come off victorious after a hard fought battle. The cock fighting arena or amphitheater is as much a matter of course as the bull ring in Mexico or Spain and Sundays and holidays witness an abundance of that cruel and disgusting sport.

As we walked through the streets we heard the strains of music, which puzzled us not a little and following them we came to a rude kind of shelter of bamboo poles and thatch about 30 feet square, open on the sides and supplied with a bench around the sides and on the seats sat some 25 or 30 boys and men with the instruments of a regular cornet band. The leader in the center soon took his baton and ordered the playing to begin. The music produced was simply astonishing and my friends are able to judge too. Several selections were rendered and at the end of each we applauded vigorously, which seemed much to please the leader; but none of the native audience hanging about the place offered any evidence of satisfaction. I was sorry to be unable to ask about the band, for it was a wonder. Later the leader assumed his regular dress, which he had mostly discarded and rode to the city with us, and he seemed to be a stylish and aristocratic man.

Street Life.

I have wandered down into the heart of the city many times and watched the ever changing tide of humanity as it passed along the busy thoroughfares. Fortunately for the city it is policed by men from the United States and they are gentlemen. The drays or carretons, drawn by the patient buffalo, with barefoot-

ed drivers, continuously wind along with huge loads. Carrattalas, or native wagons of teak occupied with a half dozen and drawn by a sorry looking horse, excite the pity of the humanitarian; carromatas or two wheeled vehicles, drawn by ponies, attract attention. They are a strange device. With two wheels and a top they are on springs and are comfortable for the passenger or who they accommodate. The driver sits in front on a small seat just behind the tail of the little stallion pony, which is generally the propelling power, and it is a pleasure to be able to say that the patient creatures are generally well cared for and not driven to excess. Getting in and out of these rigs requires skill and care else one will exhibit an awkward appearance.

Across the street is a straight shouldered woman bearing on her head a load of fish of uncertain age and she is accosted by children whose wardrobe would safely pass through a small ring, and among all the rest are seen big, overgrown boys sauntering along as if life contained little to trouble them and they hop to one side to avoid a carriage drawn by high steppers and perhaps containing a general of the army or dignified functionary; Chinese merchants and laundrymen moving as if they meant business; Hindoos, who are dressed generally in European garments, but with several yards of bright colored calico wound about their heads; sturdy Japanese from the north are mingled with the throng; peculiar Singalese from the spicy island of Ceylon; Russians, who look as peaceable now that one would never imagine there had ever been war between the two nations; Turks, Crotes and Arabians and dwellers from every nation of Europe; men from every part of our own land, all mingle with the native Filipino and the Chinese coolies sweltering under a burden borne on the shoulders with a pole, and on they go over the ancient bridge and through the crowded streets. In the busy part of the day many crowds are seen on all the leading thoroughfares.

If we follow on out into Malate we see a little winding streets with little shacks on both sides, ending in a banana grove at the end and all about women scantily clad and children still less so, while all about are the chickens, the dirt and the general quiet and lassitude that always are to be found in tropical surroundings. In the walled city things are different. Twice I have been to old Mexico and both times my little friends have said:

"Why is everybody here in jail?" The islands have been in a state of siege for many years and those who lived during the old regime were always prepared for emergency and had a large front entrance to a sort of patio or open court, from which they ascended to the upper story of the dwelling and all toward the street was secluded and they lived wholly apart from the rest of the world, to all appearances. This condition still obtains among the older part of the inhabitants and there are almost two worlds within and without the walled city.

In contrast with these aristocratic residences came the abodes of the poor and some are very much so. As I have said, their homes are of simple bamboo slats and little more. Grass mats serve for beds and the scant clothing worn by day is not removed at night. In the morning the grass mat bed is set aside, the small charcoal pot is produced, the rice pot put on and the daily meal is soon ready. The rice pot is removed from the fire and set on the floor and all gather about to eat from the same pot, no other dishes, and not such thing as knife, fork or spoon being thought of. All go to the fields to do the little work needed and they go at it deliberately. Rice is harvested a straw at a time, grass is cut with knives and so on. If there is enough they have three meals a day and if not they get along with two and perhaps one, but they are all right heartily and take it all as a matter of course. They know little about medicine or the laws of health and infant mortality is great. The women are far better off than in Mohammedan lands, though their lot is hard enough, but they are not kept under and at home from all that is going on, but instead the woman shares with the man all his pleasures, if she does have to work as hard as he works.

The bill of fare, too, is varied more or less with fruits, which may be gathered if the people will take the pains to do it. Of course, everywhere the enervating influence of the climate is felt and many from the states are unable to endure it, and less is to be expected from the people living in such temperature. There are many interesting parts aside from Manila, but in our short stay we had little time for excursions. We saw Ft. McKinley, where are stationed many of our troops which are sent to the island to maintain order. It is pleasantly situated on the Pasig river and as far as possible life is made bearable for the soldiers. In various directions from the city there are fine drives and one who is able to enjoy an automobile may have much pleasure, as it is too hot for horses to go, but native drivers are ignorant and abusive of machines.

Thousands who can afford it go to Baguio, which is the summer capital of the islands and is on a mountain, where it is always cool and it is the Mecca for the worn out denizens of the city. The Taal volcano also, though the trip to it is attended with some dangers. The southern islands are still hotter than Manila, but have their attractions also.

A Jacksonville Lady. While in Manila we had a very delightful visit with Rev. J. H. Lamb and family. Mrs. Lamb was formerly Miss Martha Duer, and we were at once received into the family circle and made welcome. This year they are occupying a lovely home temporarily vacated to them by the owner, who is away. Mrs. Lamb is in good health at present and they have two lively boys, who keep things moving

Sells the Straw

Without a Flaw

FRANK BYRNS' HAT STORE has opened this season with a more extensive assortment of domestic and imported STRAW and PANAMA HATS for men, than was ever shown in this city.

We are showing a large range of the well known Blum & Koch straw hats, makers of "the Straw without a Flaw."

Many of our straw hats are finished with the Bon Ton Ivy Comfort Elastic Sweat Bands. This enables men to wear straw hats with comfort, who have never enjoyed wearing the yacht straw hat.

in good shape. Mr. Lamb is teacher of theology in the union theological seminary and also is publisher and general manager and proof reader and all else of a paper, the "Mabuta Belita," in the Tolagoo dialect. The title of the paper means good news and is a means of much good. Then the superintendent of evangelistic work left and the duties of that position have also fallen to Mr. Lamb, so that he is indeed a busy man.

The seminary to which I referred prepares native young men for the ministry and fits them to go out and do what they may for the betterment of the people. It is wisely called union, for the Presbyterians, Methodists and United Brethren have joined in the work and now the Baptists are sending some students there and hope to be able to bear their share of the expenses and supply a part of the faculty. Mrs. Lamb teaches music in the school for girls and does all her strength will permit. We had the pleasure of meeting Rev. G. W. Wright, superintendent of the Ellinwood school for girls, which is doing a noble work. The seminary needs better and greater equipment and the school for girls could use more help to excellent advantage. The Presbyterian church is a beautiful edifice and is pleasantly located.

A Fine Hospital. Mr. Lamb conducted us on a slight seeing tour of the city which was very enjoyable. A visit to the national hospital was a delight and surprise. I have seen many hospitals, but never one better constructed than this. It is concrete throughout, cool, immense, admirably equipped and prepared for service in all branches. Before American occupation the sick were visited, if at all, by a native doctor, who solemnly killed a pig, from the entrails diagnosed the disease and gave his victim what he chose and death generally resulted. Such a thing as a real doctor was well nigh unknown. Here treatment for the poor is free. All are cared for and the place is a marvel. It was built and is maintained by the native government, under the inspiration and guidance of wise Americans.

Mrs. John Turner and daughter, Mrs. Anna Challans of Waverly were guests at the home of relatives in the city Wednesday.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-

persistence, which finally secured for
him a good position.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

FRISCO RECEIVERSHIP BRINGS DOWN STOCKS

**SECURITIES OF THAT SYSTEM
SELL AT NEW LOW PRICES.**
Liquidation of Canadian Pacific Was
One of the Features of the Day—
Shares of Pennsylvania Bring New
Low Figures.

(By Associated Press)
New York, May 28.—The stock
market was again under a cloud the
greater part of today's session, senti-
ment being even more unfavorably
affected by over night developments
connected with the St. Louis and
San Francisco receivership. The se-
curities of that system were sub-
jected to further heavy selling which
resulted in new low prices. Shares
of the Pennsylvania road were
among the other stocks which today
sold at low record figures.

The market manifested a rallying
tendency towards the close under the
lead of Reading and the Harrimans.
Advices from abroad suggested that
foreign financial interests were much
surprised and somewhat alarmed at
the outcome of the St. Louis and San
Francisco situation. London, whose
own market was heavy and dull, sold
upwards of 15,000 shares here with
a goodly sprinkling of Canadian Pa-
cific, presumably for Berlin account.
Liquidation of Canadian Pacific
was one of the prominent features
of the day which was motionless,
save at periods when the selling was
under way. On these occasions the
movement embraced other higher
priced issues, including Union Pa-
cific, Reading, Amalgamated Copper
and American Smelting. Obscure
specialties such as American Beet
Sugar and Distillers' securities man-
ifested weakness, Distillers' common
yielding 4 points and the five per
cent bonds 9 points.

Selling of Copper and Smelting
seemed to have its origin in rumors
pointing to slackening operations in
that industry, the same reason ap-
plying to Steel.

NO REASON FOR IT

When Jacksonville Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Jacksonville citizen says:

Mrs. Dora E. Price, Plum St., Jacksonville, Ill., says: "A few months ago I was attacked by pain across the small of my back and some time after an attack of La Grippe affected my kidneys. The kidney secretions became unnatural, causing me much annoyance. I had often heard about Doan's Kidney Pills and resolving to try them, I procured a supply at Armstrong's Drug Store. Soon after I began using them the pain disappeared and my kidneys were restored to a normal condition. I willingly allow my name to be used in recommending Doan's Kidney Pills."

RAILROAD NOTES.

The Alton maintenance of way department is finding difficulty in securing enough men for track work. A gang of fifty colored men were employed for the grade reduction work at Lawndale and they succeeded the white men who recently quit on account of the swampy condition of the soil where the temporary track was being laid. All along the road the same shortage is experienced. At Roodhouse the gang engaged there returned to work after being on a strike for five days. They demanded \$1.75 per day, but the company could not allow more than \$1.65. Later an agreement was reached.

Superintendents of the Galesburg, Aurora and Ottumwa divisions of the Chicago, Burlington & Quincy have posted notice that starting June 1 fuses will be added to the list of safety devices now in use by train crews. While many of the larger road engines are using fuses with success for years it is understood that the "Q" is trying them as an experiment. The orders issued states the fuses will be used by a flagman when the weather conditions are poor owing to rain or fog, or when the track is obscured to view by a sharp curve. The fuses resemble a Roman candle, but burn much longer. Some of them burn ten minutes while others burn twenty minutes. The use of the fuses is only an addition to the precautionary methods being taken for the Burlington and the red flag, lantern and torpedoes will still be used.

As has been anticipated and predicted by the management, the Alton will show a deficit after charges for the fiscal year ended June 30. In the nine months ended March 31 the road had a surplus available for charges of \$1,148,972, which was about \$1,000,000 less than the estimated charges and guaranteed dividends on subsidiary stocks for that period. At that rate the total deficit for the year would be approximately \$1,333,000, although it is probable that the actual deficit will be somewhat less. When B. A. Worthington took the presidency of the road at the beginning of the present fiscal year with the financial backing of the Union Pacific interests, who are in virtual control of the company's policy, although the Toledo, St. Louis and Western holds control of the stock, it was understood that he was to rehabilitate the property and spend freely for upkeep, irrespective of yearly surpluses. The Toledo, St. Louis & Western, commonly known as the Clover Leaf will earn its interest charges for the fiscal year and have something to spare. Just at present the Clover Leaf would be better off without the Alton stock. The company's 4 per cent gold bonds issued to purchase the Alton stock require annual interest of about \$460,000. It is confidently believed by both the Alton and the Clover Leaf interests that within a few years the Alton stock will once more be on a dividend-paying basis and then the Clover Leaf's investment will again bring in adequate returns.

THE SOUTHWEST OIL FIELD.

Monster Wells Southwest of Oklahoma City Now Interest.
Oklahoma City, Ok., May 28.—The bringing in of monster new oil and gas wells a short distance southwest of Oklahoma City indicates that Oklahoma City is soon to be the central point of the great oil and gas fields of Oklahoma, and attention is being attracted to Oklahoma City as the base of operations of investors of the east who have become interested in fields not far from Oklahoma City, both northwest and to the southwest.

Oil operators are enthusiastic about recent developments southwest of Oklahoma City, and since Oklahoma City is the largest city tributary to the new fields in Stephens and other counties in the same part of the state it is expected that Oklahoma City will be the congregating place and the headquarters of those who are investing in the productive fields southwest of this city.

Reports made of the new fields have been printed in eastern papers and Oklahoma City will be visited by many oil men in the near future for the purpose of investigating and investing. Much interest has been shown by outside investors by reason of a report made by Chas. N. Gould, formerly state geologist and Oklahoma is viewed by many oil men as the future greatest field on the continent. In a recent letter to C. F. Colcord of this city, Mr. Gould gives added stability to the Oklahoma oil fields by the confidence which he expresses.

Tell the War Story Again.
Headquarters Department of Illinois, Grand Army of the Republic, Chicago.

Dear Comrades:—
Memorial day is almost here and we are again called to do our duty, and place upon the graves of comrades mustered out, garlands of flowers, and with full hearts pay honor to those who were with us in days gone by and now await our coming to the land beyond the river.

The years may come, and the years may go, and in the passing, we too shall be called one by one to join them over there; and soon. Let us so round out our lives, that at the end it may be said with truth of each and every one, he was a faithful comrade, and his passing leaves a place among his fellows that can never be filled by any one.

Recount the deeds of service, tell the story to the new generation, inspire the children with loyal patriotic thoughts, and instill in them a spirit of proper and careful observance of Memorial day, pressing upon them the fact that our time is almost ended, and the duty that comrades now perform will soon be theirs to do.

With heads bowed low, with arms reversed, go once again to hallowed ground and strew sweet flowers on graves of fallen heroes. History will, upon pages that never perish, tell what was done by the living, and the dead in the great war, but love must tell the story from year to year, and keep bright in the hearts of those still here the memory of our deeds, our suffering and our sacrifice.

"Down the long level of the street
The solemn drums a measure beat
To time the tread of marching feet—
It was the day of memory."

Out to the city of the dead
The waving flag its lovers led,
Where soldiers lie, 'tis sacred ground,
Each shrine their loyal comrades found.

And so each year at call of drum
The veterans and their proud sons come
With flowers and words of praise
Well won.

To keep the day of memory.

Henry C. Cooke, Dept. Comdr
Assistant Adjt.-Gen.

May Ring Church Bells.
Headquarters Grand Army of the Republic, Bridgeport, Conn.
General Orders No. 5:

"In accordance with the provisions of the rules and regulations, Friday, May thirtieth will be observed as Memorial day."

"It is to be hoped that this day, a day which above all others is regarded by the Grand Army of the Republic as its day will be appropriately recognized by every post and every comrade of the order. With the swift passage of time there comes the inevitable diminution in our ranks, but those who survive should keep up a good spirit and look the grim tyrant in the face as cheerfully, bravely and uncomplainingly as in the days from '61 to '65, when every lagging in the breech or rusting of the leaves might bring the summons to the great beyond."

"The flying years have added materially to our work of decorating the graves of our union veterans with flags and flowers, emblems of our undying love for them, and tributes to their unselfish devotion and patriotism. Let us give one day in loyal devotion to their memories and add to the many object lessons in patriotism and gratitude to the heroic defenders of the land that we have given in the past, the influence of which on our citizens has been and will continue to be of priceless benefit to our redeemed and reunited country."

"In this work call to your aid the auxiliary and affiliated patriotic societies of the Grand Army of the Republic. Let the Woman's Relief Corps, the Ladies of the G. A. R., the Daughters of Veterans, the Sons of Veterans and also the Sons of Veterans' Auxiliary all help in the work, and do not forget that the United Spanish War Veterans, those veterans of a still later war than the one in which we participated, are also ready and willing to render service in the work."

"Attention is called to the action of the 45th National Encampment which ordered that as part of the public exercises of Memorial day, bells be tolled from 12 o'clock noon to twelve-fifty, that flags be placed at half mast and that comrades remain standing with uncovered heads during this period."

Robert Maines of Nebo was a visitor in the city yesterday.

Mr. Samuel O. Welday, principal of Whipple Academy, resigned his position a few weeks ago. Mr. Welday has been successful in his work in Whipple, but has decided to enter public school work. The trustees have accepted the resignation and appointed as his successor, Mr. Walter Leslie Harris, of the University of Kansas.

He has had a year of successful teaching experience, as instructor in Greek and Latin in the Fort Scott Collegiate Institute in Kansas. During the present year he is pursuing post-graduate work in education at the University of Kansas, where he holds a fellowship, and is also assisting in the work of instruction. Mr. Harris expects to take a Master's degree at the University of Kansas next month. He is a young man of attractive personality, and the trustees feel confident that he will maintain the high standards which have always characterized the work of Whipple. Mr. Harris will come to Jacksonville early in July.

COBURN PLAYERS PRESENTED

IPHIGENIA ON COLLEGE CAMPUS

Romantic Tragedy of Euripides Staged With Artistic Ability—Classical Club Sponsor for the Production.

On the campus of Illinois College in the shadow of old Beecher hall the Coburn players last night staged "Iphigenia" under the auspices of the Classical club of Jacksonville. No more appropriate setting could have been found for this play of romance and tragedy, staged for the first time more than two thousand years ago and the night itself was perfect.

A day or two since Miss Coburn visited the campus to select the site for staging the play. Instead of choosing a spot out under the trees near the Jones memorial building her eye trained in outdoor stage artistry directed her to the vicinity of Beecher hall. When the athletic track was built a few years ago the gentle rise of the ground near Beecher hall was increased by some excavating work. A sort of embankment there and this "higher ground" served as the stage last night and the seats for the auditors were ranged on the lower level. Trees heavily foliaged furnished a natural background to that stage and only boughs and branches were added to furnish the shielded exits needed.

Calcium lights gave the desired light for this bower like stage and the scene was one of great beauty as the absorbing story was unfolded by characters historically correct in speech and costume. There was something appealingly artistic about the whole of the production and the audience watched and listened with a breathless sort of interest.

The story of the plot centers as follows Iphigenia, the maiden daughter of Agamemnon whom every one thought had been sacrificed to Artemis at Aulis, was in reality rescued by her and spirited away to the land of the Taurians, where she became a priestess. There it was her duty to sacrifice to the goddess all strangers who landed in the country.

Orestes, her brother, who is driven from land to land by the Furies, as a punishment because he has killed his mother, is promised relief by the oracle if he will take the statue of Artemis from the land of Taurians and carry it to Greece. He and his faithful friend Pylades arrive in the Taurian country, are captured and brought to the temple for sacrifice.

When Iphigenia learns that they are Greeks she offers one of them his freedom, if he will convey a letter to her people in Argos. Orestes refuses to save his life at the sacrifice of his innocent friend and it is arranged that Pylades shall carry the message and Orestes be slain at the altar. That Pylades may be able to deliver the message even though the letter may be lost, Iphigenia decides to read it. It is a letter to her brother Orestes imploring him to rescue her from the barbarian land of the Taurians. This leads to a most dramatic recognition scene.

Iphigenia, Orestes and Pylades then plan to escape and carry the statue of the goddess with them. Iphigenia craftily plays upon the superstition of the king and they would have made good their escape if the wind had not forced them back to shore. They are about to be captured again, when the goddess Pallas Athena appears and forbids the king to detain them.

Mr. and Mrs. Coburn appeared last night in the stellar roles of Iphigenia and Orestes. The others appearing were Mr. Thomas Mitchell as Pylades; Mr. Frank Peters as Thoos, king of Tauris; herdsman, Mr. George Gaul; messenger, Mr. George Currie; The Goddess Pallas Athena, Miss Eugenia Webb; leaders of chorus, Miss Kate McLaurin, and Miss Constance Howard. In addition there were handmaids, soldiers and attendants.

The Coburn players are of such recognized ability, the mere statement that they made up the cast for "Iphigenia" is the equivalent of saying that the presentation left nothing to be desired. Gilbert Murray's spirited translation from the Greek into English rhyming verse was the one used last night.

The Classical club certainly gave the people of Jacksonville a real treat in arranging for this visit of the Coburn players. The patrons for the occasion were: Dr. and Mrs. A. L. Adams, Mr. and Mrs. P. F. Alexander; Mr. and Mrs. F. J. Andrews, Mr. and Mrs. W. S. Badger, Mr. and Mrs. C. A. Barnes, Dr. and Mrs. Carl E. Black, Mr. and Mrs. Harry B. Brady, Mr. and Mrs. Alfred T. Capps, Mr. and Mrs. James G. Capps, Mr. Stephen R. Capps, Mr. and Mrs. Truman P. Carter, Dr. and Mrs. E. L. Crouch, Mr. and Mrs. J. H. Danskin, Mrs. John R. Davis, Mr. and Mrs. R. A. Gates, Mrs. W. H. Hinrichsen, Mr. and Mrs. R. M. Hockenull, Dr. Austin Kingsley, Mr. and Mrs. E. P. Kirby, Mr. and Mrs. Nelson McMurphy, Mr. and Mrs. J. Marshall Miller, Dr. F. A. Norris, Miss Mary Reed, Dr. and Mrs. David Reid, Mr. and Mrs. Andrew Russell, Mr. and Mrs. Charles Rutledge, Mrs. Marian B. Tanner, Mr. and Mrs. R. W. Woolston, Mr. and Mrs. Thos. NOTORIOUS "MAN-WOMAN" CROOK IS RE-CAPTURED

Tells of His Escapes From Drawing Room of Santa Fe Train While Officers Slept.

Albuquerque, N. M., May 28.—James Arthur Baker, alleged notorious "man-woman" crook arrested at Kansas City recently and who escaped at Flagstaff, Ariz., from Sheriff Wilson of Riverside, Cal., while being taken back to that city for trial, was captured here today by Chief of Police McMillen. Baker first denied his identity but confessed after he had attempted to escape on reaching jail.

Baker told of his escape from a drawing room of a Santa Fe train while the officers slept. He crawled through the ventilator of a car and rode the top until the train stopped, when he jumped off and escaped.

With \$70 which he had taken from one of the officers he bought a ticket east on the next train arriving here yesterday. He declared he was on his way to a store to buy remittance with which to disguise himself when arrested.

The only time the jury was heard from was when there was a call for the letters in which Mrs. Szabo wrote relatives a few days before she met her death in the waters of Greenwood Lake, that she would sail for her home in Europe on July 27th. The fatality occurred July 16th.

BELIEVE DELEGATES WILL SIGN DRAFT TREATY UNDER COMPULSION

Servian and Bulgarian Premiers Will Meet Saturday and Confer Over Situation.

London, May 28.—It is generally believed that the Servian and Greek delegates will sign the draft treaty under compulsion. The only hopeful development in the quarrel between the allies is an arrangement whereby the Servian and Bulgarian premiers will meet Saturday on the frontier to confer over the situation.

Speaking before the Skupshchina today the Servian premier explained that Serbia desired a modification of the treaty with Bulgaria regarding the division of territory because the results of the war combined with the actions of the powers, created a situation not foreseen when the treaty was signed.

An Athens despatch to the Daily Telegraph says that instructions have been sent to the Greek delegates to sign the peace draft without alteration but embodying a separate protocol respecting the rights reserved by Greece to discuss with the powers the points raised.

WILL NOT BE REPRESENTED.

Berlin, May 28.—The executive committee of the German Iron and Steel Manufacturers' society today voted against representation at the Panama-Pacific exposition at San Francisco. LEXINGTON BUSINESS MEN FATALITY WOUNDED IN DUEL

Hotel Man Makes His Will and Then Starts Fight With Grant Preble on Street.

Bloomington, Ill., May 28.—Joseph Stoughton and Grant Preble, business men of Lexington, fifteen miles north of here, probably fatally wounded each other this afternoon in a revolver duel on the street. Stoughton went to the office of an attorney and made his will. Then going to the street, shot Preble, who was in front of his house. Preble, shot through a lung, rushed into the house, procured a revolver, and fired two bullets into Stoughton, one going through the shoulder and the other puncturing the intestines.

Stoughton is 52 years old and Preble 45. The former is proprietor of a hotel and the latter owns a garage. Remarks which Preble is alleged to have made regarding the character of the hotel are said to have caused the duel.
